Blank Template Help

Simply place your design on a different layer and build your design over the top of it on a new layer. Then delete the template when done. Rotate the template 90 degrees to fit portrait format.

Bleed Area

You will need to extend your design to fill the bleed are. This are will be trimmed of to make sure you don't have any white lines on the edge of your print.

Cut Line

This is where we aim to cut your design to the finished size. Any part of your design that is outside of this line will be cut off.

Safe Zone

The safe zone is 3mm inside of the cut line. Make sure all important elements are kept outside of this area.
